HYDRY
PROTECTION

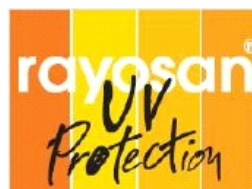

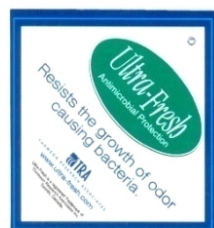

- Wicks moisture away from skin.
- Dries more quickly.
- Stays soft and breathable.
- Keeps performing after washing.

Keeps your skin warm and dry,
bringing you protection, comfort,
and care.

BONDED ANTIMICROBIAL

The AEGIS Microbe Shield technology is a permanent part of any surface it protects. It is not consumed by the microbes; therefore, it does not create an environment for adaptation. This sample shows no leaching, no zone of inhibition, and no growth on the AEGIS Microbe Shield protected sample.

Helps block large parts of UV rays that may contribute to harmful effects on skin.

- Reduces the fabric's absorption of soil & stain marks.
- Dramatically improves stain release during laundry.
- Allows fabric to remain breathable.
- Keeps performing after washing.

Keeps fabrics looking clean, fresh and new ... providing your clothes with protection, comfort, and care.

- Easy removal of stains during laundry.
- Fast moisture transportation away from skin.
- Improved drying properties.
- Durable effect – even after multiple washes.

Surrounded by double comfort:
Clean & Dry!

- Wicks moisture away from skin.
- Dries quickly.
- Sanitized® inhibits the growth of odor forming bacteria.

Provides durable sensational freshness and well-being.
